

# HELLO! FROM PATRICK TAY

I hope 2023 has been going well for all of you!

## Creating a Better Home

The West Coast Town Council team has been working hard sprucing up the estate. I am pleased to announce the completion of the following projects in the past few months:

- Covered linkway between the new school gate of Jurong West Primary School and Blk 601A
- Upgrading works at the Blk 692 Resident's Corner
- Childrens' Playground near Blk 652C and Blk 664B

There will be many more Town Improvement Projects coming your way in 2023 including amenities like Barrier Free Access Ramps, Linkway/Drop Off Porch and upgrading of Resident and Elderly Fitness Corners. You can also look forward to the Jurong West Hawker Center scheduled to reopen in Q3!

## Connecting with You

Kudos to our Pioneer Constituency Office, Grassroots Leaders, community volunteers and partners - we have seen a wide array of activities being conducted during the festive months that have just passed. The annual Christmas and Chinese New Year celebrations returned in full force and it was also a pleasure to have met many of you and your young ones at the Edusave Awards and New Citizenship ceremonies. If you have any new suggestions or ideas to contribute, I will like to personally welcome you to our growing team of volunteers who dedicate their time and expertise for the various initiatives happening in the community.

## Caring for all Citizens

Last but not least, I hope the various Budget 2023 measures, especially the Assurance Package top-up will help support all residents and defray the rising cost of living affecting everyone globally. Do remember that the 2023 \$300 CDC voucher scheme has been launched with an enhancement feature this time round which allows for half of the vouchers to be redeemed at selected supermarket chains. On the local front, we have

also been caring for the vulnerable within our Pioneer community with various Care events that saw our beneficiaries receive more than \$20k of support from our various sponsors/partners in the past 3 months.

Wishing everyone a prosperous, healthy and joyful year ahead!

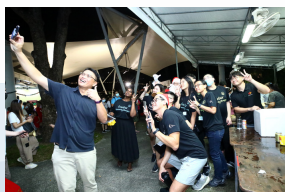

Best regards,  
Patrick
