

# Pedestrian Overhead Bridge (POB) Lifts in West Coast

During house visits, seniors and young families had pointed out the inconvenience they faced when travelling to major transport nodes and public facilities. To meet the needs of our residents, 3 POB lifts were constructed in West Coast/

The completion of these POB lifts has been met with much appreciation and compliment from West Coast residents, as they can now enjoy greater ease of travel and access to nearby amenities and facilities within our estate, as well as Clementi Town Centre and Bus Interchange which is also a major public transport node. The improved connectivity and barrier-free access has also enabled less mobile and vulnerable groups greater confidence in getting around independently.

Completed lift shaft near Blk 506 West Coast Drive, across AYE leading to Clementi Town Centre

Completed lift shaft near Blk 610 Clementi West St 1

Completed lift shaft at West Coast Walk near Parc Condo
