

# HELLO!

## FROM RACHEL ONG

Dear Residents of Telok Blangah,

May the Lunar New Year bring you much joy and good health!

I am excited to share that we've completed the Repairs & Redecoration (R&R) programme for the following blocks:

- Blks 103A-B to 106A-B, 113 & 114 Depot Road
- Blks 80A-C Telok Blangah Street 31

I hope you enjoy the refreshed look of the blocks and I look forward to seeing your photos of our reinvigorated estates!

As part of a national initiative to improve barrier-free access to hospitals and polyclinics, we are pleased to share with you that the installation of lifts at the Pedestrian Overhead Bridge across the AYE linking to the National University Hospital (NUH) has been completed. This is especially beneficial to patients, seniors and friends who are less mobile as it enables them to travel independently to their medical appointments.

At the Parliament Sitting in January 2022, I shared in support the Motion on Singapore's transition towards a low-carbon economy. I suggested reviewing employability gaps for undergraduates, and greater integration of sustainability-focused courses across all Institutes of Higher Learning, specifically through our Pre-Employment Training (PET) as well as Continuing Education and Training (CET) Efforts to boost undergraduate employment rates in green sectors.

It has been a joy working with our team at the West Coast Town Council together with a committed group of volunteers! We welcome feedback, comments, or suggestions, please feel free to reach out to me at [rachelongsy5@gmail.com](mailto:rachelongsy5@gmail.com), and I will follow up.

Much blessings to you and your family,  
Rachel

Completed R&R for  
Blks 80A-C
